

What's Unique about our school?

- Manhattan's only parent run organization
- Not-for-profit
- Early childhood education and Montessori trained teachers
- Small size and better child to adult ratio

OGS values diversity and we welcome children of any race, color, national, religious and ethnic origin to all the rights, privileges, programs and activities generally accorded or made available to students at the school.

Our goal is to help your child grow in a fun, safe, educational environment and to help your child to succeed.

Please feel free to stop by or call at any time during school hours.

Early Childhood years are very important in formation of a child's personality, tolerance, adaptability, self-control and confidence, etc.

Our enriched curriculum is carefully planned to both motivate and to educate children. Our goal is to help children meet their potential to the maximum extent while providing a safe and secure environment.

Children's brains are like sponges, ready to absorb anything and every thing. Thus it is very important to make sure they are in an

appropriate and stimulating environment.
